CARIBOU HABITAT RECOVERY PROGRAM (CHRP) AUGUST 2018 RFP

APPROVED PROJECTS

for the Implementation of Caribou Habitat Restoration in the Cold Lake Caribou Range

Company: Cenovus Energy Inc.

Objective: This project involves the planning and operational implementation of forest habitat restoration treatments in the northwest corner of the Cold Lake Air Weapons Range, in an area designated as the “West Clyde” area, adding an additional 21,890 ha of intact caribou habitat.

Company: Devon Canada Corporation

Objective: This project will develop and implement a linear restoration treatment plan for 200 km in the project- area to target the restoration of abandoned or orphaned footprint that is no longer the responsibility of a disposition holder.

Company: Woodlands North

Objective: This project will develop a treatment for the restoration of about 100 km of legacy seismic lines in the Cold Lake caribou range and implement the treatment plan.
